PRESS RELEASE: FEBRUARY 10, 2009

CTS Technology Solutions, Inc. celebrated its 25th anniversary of being in business on Tuesday, February 10, 2009. David A. Heuman opened the doors to CTS in Sparta on February 10, 1984, with only one other person working for him. Now, in 2009, with five office locations (Sparta, Belleville, & Carterville in Illinois; St. Louis & Cape Girardeau in Missouri), Mr. Heuman employees 38 people, most of whom have been with the company for more than 10 years.

CTS Technology Solutions has spent 25 years staying at the forefront of a rapidly changing industry. Starting with business telecommunications, the company has evolved to today's version of the Complete IT/Voice Solution, which is a bundled package for voice and computer systems at a fixed cost, eliminating the two greatest risks associated with technology – obsolescence and the ongoing unknown cost of operating technology.

"This is probably the most exciting time in the history of our company," said Mr. Heuman. "We're entering into a new chapter with a lot of great people. The technology changes that occur in this industry are absolutely phenomenal because they create opportunities for all of our customers to accomplish their strategic objectives much faster and at a fixed cost that they can count on. This enables our customers to concentrate on their number one investment, their business."
