

Closed Circuit TV

Safety and Protection

Safety and protection ... two words that have become paramount in today's education facilities. Everyone agrees safety and protection are a priority. Threats coming from within, as well as out, have steadily increased.

According to the National Center for Education Statistics 2007, in 2005-06, 43 percent of public schools used one or more security cameras to monitor the school. Camera systems are not only used to monitor the school property, but are also intended to monitor or restrict students' and visitors' behavior on campuses.

Your CTS Closed Circuit TV Solution

CTS Technology Solutions, Inc. has designed and implemented many school CCTV systems, from simple stationary camera systems to those with more intricate capabilities, like zoom and pan. Each system is designed according to each particular need and budget. Our Business Technology Consultants are experts in ERATE, and can recommend the best system for your schools.
