

Technology Solutions, Inc.

Complete IT / VOICE

Proactively Managing your Success

Complete IT - Education

Priority 1 Funding Available for Your IT Needs!!

Preserve your capital dollars with a rental program.

Maximize rental program by utilizing ERate.

Your time is precious. You have more important issues to deal with than your technology. It is, however, a critical enabler to your organization and in need of attention to ensure it's running predictably, optimally, and securely. Our fully managed program is the ideal solution for an organization like yours, an organization that demands the utmost in technology capabilities, reliability, and quality service.

Your Complete Managed Services Solution

This is a comprehensive service that includes the equipment and service for data needs in your organization. Our service is designed to monitor and maintain your critical components such as servers, firewalls, switches, backup appliances and routers. The program can also include internal wire-

less systems and CCTV. Only eligible components of the program can be funded by ERate.

If Technology is Not Your Business Make It Ours

When you outsource the management of your important technology resources to us, we look upon this as a partnership. **Our comprehensive and professional approach means we are your IT department.** By optimizing your technology's performance, it will work at the peak efficiency and reliability levels that your organization demands, allowing you to focus on running your school, not your technology. Security, networking, data protection and user support - we handle it all for a single, predictable cost.

Do these issues plague your organization?

- **Management struggles:** Need to find a more efficient way to manage your technology.
- **Budget crunch:** How do you control the cost of ever-changing technology?
- **Costly talent:** Struggling to justify expensive IT staff with specialized skills? Challenged in cost justifying it?
- **Frustration:** Challenged getting support that knows your technology?

Program Advantages:

- **Lets you focus on your organization:** At CTS, we are your technology watchdog, enabling you to focus on your core business activities instead of managing your technology or its problems.
- **Reduced Technology downtime through proactive maintenance:** Through regular, preventative maintenance activities designed to keep your technology operating efficiently, we reduce the number of emergency incidents you encounter.
- **A single monthly cost for superior technology care:** No more guessing what IT support will cost. Receive guaranteed predictability of your IT support costs and avoid high emergency fees. One monthly fee covers all support and hardware.
