IP Clocks

Consistent & Accurate Time Throughout Your Facility

Keeping time accurate and consistent throughout a large facility is easy with new IP Clocks - simply add a clock to any location on the network via RJ-45 connection. Power to the clock is provided by Power-Over-Ethernet (PoE) eliminating the need to add costly power outlets. Installation is easy and inexpensive and allows quick and easy relocation of clocks throughout a facility.

Manufacturing Facilities - Synchronized time promotes adherence to schedules keeping the entire team consistently meeting productivity goals.

Healthcare - Daily healthcare requires synchronized time schedules which are critical for patient care and timely delivery of medications.

Schools - Accurate timekeeping is crucial in transitioning students from on class to the next.

IP PoE Clock Features:

- Set Automatically by NTP (Network Time Protocol)
- 10/100BaseT Ethernet Compatible
- DHCP or Static IP Addressable
- Power over Ethernet (IEEE 802.3af)
- No Master Clock Required
- Simple User Control for:
 - ◆ IP Configuration
 - ◆ NTP Server Address
 - ◆ Time Zone Offset From UTC, Daylight Savings Time
 - ◆ Time Display, 12/24 Hour Format
 - ◆ Status Reporting
- Easily Up-Load Firmware Upgrades
- Industrial Grade Metal Housings
