A cost-effective way to run web meetings

ConferTel's ***i-Present Pro*** Web Conferencing is ideal for enterprises, departments, or individuals seeking high-quality web conference software to complement a teleconference.

i-Present Pro is a professional yet affordable service for conducting everyday web meetings. Participants need only a browser. You control what they see, and when they see it. ConferTel's ***i-Present Pro*** provides all the features you need, yet it's simple and practical to use.

High Value, Low Cost

i-Present Pro delivers the features you need — presentation/document sharing, application sharing, polling, dial out, chat, Outlook® integration and more — for a price you can afford.

Unique Needs, Unique Solutions

ConferTel offers service plans to meet your business model and goals. Monthly, annual subscriptions and per minute (pay-as-you-go) plans are available.

Easy-To-Use

i-Present Pro is accessible anytime, anywhere from any computer with an Internet connection. There are no cumbersome downloads and advanced planning is not required to use it. Simply log in and start or join your meeting.

A high-impact productivity tool, ***i-Present Pro*** delivers the features necessary for a successful online meeting and can be readily used by people of all skill levels without training.

How it Works

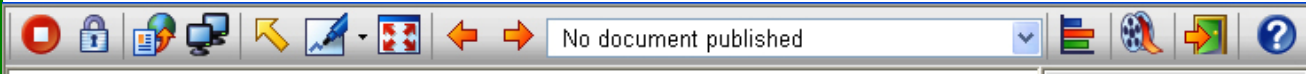

A reservation-less service, ***i-Present Pro*** starts quickly, has a simple log in process and supports both planned and unplanned meetings. Joining an ***i-Present Pro*** session requires only a browser and an Internet connection. Users can join from any computer or web appliance (e.g., Windows, Macintosh, Linux, UNIX) and there is nothing to download, thus eliminating the security and configuration problems often encountered with web conferencing tools.

Communications are encrypted with 128 bit SSL to keep presentations confidential. To host a conference, *simply*:

- ➊ Open a browser window directed to the Host log in page URL
- ➋ Log in using assigned Moderator PIN and Conference Code
- ➌ Click the start button on the toolbar

Features and Benefits

Supports an unlimited number of participants With our pay-as-you-go (per minute) service you can hold a web conference for up to 100 participants without a reservation. If you have more than 100 participants just give us a quick call before the conference.

Application Sharing Share your entire desktop or any application (single program or window) on your computer. Participants will see what you are doing in real time including your mouse movements and keyboard typing.

One-Click Publishing of Microsoft PowerPoint, Word or Excel Files Flip slides easily for your participants, page through documents or move through worksheets. Published documents are viewable only. For collaboration & real-time document changes use application sharing.

Control Passing During a web conference, allow any participant to be the presenter, or allow a participant to "drive" your computer by controlling your mouse and keyboard. You can also remotely control a participant's computer.

Web Tours Take your participants on tour on the Internet. They don't have to hunt for links or put in URLs to follow along.

Reservation-less Teleconferencing Integration Moderators and participants use the same conference code for ***i-Present Pro*** that they use for the teleconference.

No Advance Reservation Required Start ***i-Present Pro*** on a whim during a teleconference, or e-mail an invitation in advance.

Record & Playback Record your web conference, including the audio, and allow participants to play it back on demand.

File Transfers Send individual participants or entire group any file on your computer during the web conference.

Annotations and Pointer Tool Annotate (mark-up) or highlight major points being shared.

Hand Raising & Polling Allow participants to "raise hands" for questions, ask polling questions during the conference.

Chat (host or participant initiated) Enables participants to get your attention without interrupting the conference flow.
