President  
CTS Technology Solutions, Inc.

## **Technology Assurance Group Invites CTS to Present on the State of the Telecommunications Industry at its National Convention**

*David Heuman, President of CTS, to Lend His Expertise and Years of Experience to U.S. and Canada's Top Telecommunications Providers*

SOUTHERN ILLINOIS AND ST. LOUIS — November 30, 2006 — CTS, an industry leader in business communications, announced today that Technology Assurance Group (TAG), an association of independently owned telecommunication companies representing over \$300 million in annual sales, invited David Heuman, president of CTS, to present on the state of the telecommunications industry at its 7<sup>th</sup> Annual TAG Convention. Mr. Heuman will share his extensive industry expertise and company's experiences with top telecommunications providers located throughout the United States and Canada. TAG's 2007 National Convention will be held on March 7<sup>th</sup> – 9<sup>th</sup> in San Diego, California.

The theme for the upcoming year's convention is "Communicating Through Convergence". The convergence of voice and data (VoIP) is reshaping the way businesses communicate and with it comes both tremendous opportunity as well as significant challenges. According to the Telecommunications Industry Association and Wilkofsky Gruen and Associates, VoIP utilization in the U.S. will rise from 6.5 million lines this year to 19.2 million by the end of 2007. Mr. Heuman will participate in a variety of discussions exploring critical topics surrounding VoIP such as its impact on telecommunications

and the global business environment. Telecom professionals representing voice and data providers, major industry manufacturers, and trade journals will listen to Mr. Heuman offer his valuable insight. The roundtable discussions are the most popular activity of the convention because it's an opportunity for open exchange of ideas and information.

"It is an honor to share our knowledge and experiences that we have gained over the years from doing business in our local marketplace," said Mr. Heuman. "Since the inception of CTS Technology Solutions, Inc., our mission has been to invest in employee education and technology in order to stay at the forefront of telecommunications. By doing so we're able to give our customers increased profitability and a competitive advantage. Conducting business in this manner has positioned us to pass along our experiences with convergence to our colleagues."

"The TAG Convention provides a unique opportunity where our member companies interact and learn better business practices from leading organizations in our industry," stated Dale Johnson, CEO of TAG. "Mr. Heuman is well respected among his peers and his company is one of our premier members. Everyone in attendance will benefit from Mr. Heuman's views."
